

October 23, 2020

Dear Parent/Guardian,

The correspondence dated October 15, 2020, stated that students in Grade 5W would receive remote instruction on October 20, 21, 22 & 23, 2020. I am pleased to announce that Public Health has confirmed that face-to-face classes for YCS Room 5W will resume on Tuesday, October 27, 2020.

Upon return to school, staff and students will continue to follow the GSSD health and safety guidelines, including wearing non-medical grade masks (or face shields – with approval), following hand hygiene practices, and physical distancing.

Though the transition to remote learning may have been challenging, overall, it was successful. I wish to thank all parents/guardians for ensuring that your child(ren) engaged in learning during these unprecedented times. I would also like to acknowledge the outstanding leadership and commitment displayed by the YCS staff. School divisions across the province have reached out to Good Spirit for direction connected to remote learning if one of their schools must transition to remote learning.

We will continue to provide additional information to parents/guardians as it is available. For further information regarding COVID-19, please call Health Line at 811 or visit the Saskatchewan Ministry of Health website at www.saskatchewan.ca/covid19.

Sincerely,

Quintin Robertson
Director of Education
Good Spirit School Division No. 204
