## School Focus Points

### Grayson Innovation Hub – STEAM Program:

The Grayson School SCC and Staff worked together with a goal to develop a program that would help make Grayson School distinct by offering a unique and innovative program.

- This led to developing a STEAM program (Science, Technology, Engineering, Art, and Math).
- The SCC fundraised over \$10,000 to renovate the old computer lab into a space to house this program.
- Funding was used to purchase new furniture, tech equipment, coding kits, etc.
- Steam is offered to grades 1-6 to supplement their Math and Science instruction.
  - Students work through the engineering design process to try to accomplish a variety of different tasks. Main focus is on problem-based learning where students are given a challenge, or a problem and they work through the steps to try to solve that problem.

*Before – Computer Lab*

GIH – Grayson Innovation Hub

## Grayson Community Daycare Project

In spring of 2021 Good Spirit School Division was approached by the Grayson Community Daycare Committee to discuss a potential partnership that involves a portion of the school being used for a daycare.

- Members from GSSD met with the Daycare Committee and a ministry representative to review the space, determine what was required, and discussed information needed for the committee to complete their application.
- March of 2022 news was shared that funding was approved for 20 daycare spaces
- GSSD and the Committee recently met, and a plan is in the works. 1080 Architecture is being brought in as design consultant working hand in hand with the committee while being supported by GSSD.
- The daycare will use classrooms 117 and 113 as well as share the Home Ec Kitchen 111.

Classroom 113

Room 117

Recently completed projects:

- Home Ec, Classroom, and Principal Office Upgrades – 2018

Planned projects:

- Roof Replacement
- Phone System
- Sidewalk Repair – Barrier Free
- Automatic Door Opener – Barrier Free

Potential future projects:

- Washroom renovation
- Paint Refresh
- Gym Renovation
