Pre-Calculus 30	Kelsey Newman	X		
Psychology 30	Kevin Kitchen	X	X	
Special Project	Val Gendreau			X
Workplace & Apprenticeship Math 30	Nolan Matthews		X	

Items to note prior to registration:

Registration for courses offered through DLS should be done through the regular school in the student's attendance boundary. Please contact your school administrator for more information.

- There are minimum and maximum enrollment for each course. Course offerings may be cancelled.
- When courses are offered in the attendance boundary school, registration will not be permitted unless the student is a full time DLS student

Full-time DLS students (*no in-school courses*) are registered at the Yorkton Regional High School for registration. Families are encouraged to reach out to the YRHS and register directly.

- Graduation ceremonies for part-time students will be held at the attendance boundary school.
- Graduation ceremonies for full-time students will have the choice to participate in the attendance boundary school or YRHS
- Extra-curricular opportunities are not available to DLS full-time students

Students needing courses for graduation that are not offered in DLS should contact the Superintendent of Human Resources for more information and the potential of taking online courses through neighbouring school divisions.

At this time DLS is unable to provide modified programming.

Students must have their own devices and internet connectivity. Please contact the Superintendent of Human Resources for extenuating circumstances.
