

STUDENT ACKNOWLEDGEMENT OF ENROLLMENT IN LOCALLY MODIFIED COURSE(S)

Student Name:

Date of Birth:

School:

Grade:

Formal and informal assessment and consultation with parents/guardians/caregivers, teachers and educational personnel has resulted in the recommendation of the educational team that you be placed in the Locally Modified Course(s) listed below (include all courses for the current term).

The school team has reviewed the following information and I clearly understand the recommendation for the Locally Modified Course placement described above. I understand the rationale for placement in modified programming including:

- Rationale for recommending the course(s)
- Differences between regular and modified courses
- Course goals and content
- Career and post-secondary implications
- Method of course delivery, assessment, and evaluation process

I have discussed and fully understand the:

1. differences between Regular Courses and Locally Modified Courses,
2. differences between a Regular Grade 12 transcript and a transcript that contains Locally Modified Courses, and the implications for admission to some career and other post-secondary choices.
