School Mission, Vision, Values, & Compelling Why

Motto – Students Come First

Mission – “Building Strong Foundations to Create Bright Futures”

Vision – “Learning Without Limits ... Achievement For All”

Values – Belonging, Respect, Responsibility, Learning, Nurturing and Perseverance

Student Learning and Well-Being - We exist to provide the highest level of student learning. All students will experience learning environments rich in the opportunities and experiences necessary to promote intellectual, emotional, spiritual and physical well-being. Students will be provided with differentiated supports to assist them as they commit to develop their personal potential. They will be empowered to achieve success and positively impact the lives of others. Students will have access to relevant, engaging curriculum and instruction supported by effective assessment strategies and tools. A definitive focus on student growth requires the measurement of individual progress toward a clear set of identifiable and measurable outcomes. Data will be used to inform decision-making processes with the ultimate goal of promoting future personal growth and providing students the ability to achieve to their potential.

Equitable and Balanced Opportunities - We are committed to providing equitable, balanced opportunities among schools, students and staff. To achieve this goal, baselines are essential to organizational effectiveness. A baseline, or basic standard guideline, is a pre-determined level that must be established in order to achieve our strategic

objectives. Confirmed baselines provide us with the knowledge of the important components of our instructional and operational programs. The implementation of the strategic plan will include the development of baselines to guide future decisions with attention to high-level growth and achievement. In some instances, special circumstances will dictate that we go beyond established baselines to address specific needs. When that is the case, the division will implement equity processes. Equity is a system of fair and inclusive rules, processes or practices that must be consistently implemented to ensure transparency and student success. For example, in some instances, a school might have a higher than average occurrence of students with intensive learning needs. In such a case, the school could appeal to the intensive supports equity process to request additional teacher and/or paraprofessional staff beyond the established baseline. Another example might see a school being allotted additional caretaking staff beyond the established baseline due to the existence of a Pre-Kindergarten program within the facility. When baselines and equity processes are in place and adhered to, students, staff and school needs will be met in a fair and transparent manner. It is fundamentally important that board members, students, staff, families and communities are able to express a shared understanding of the established processes and baselines. The division will determine the “current state” and compare that to the “desired state.” The difference between the current and desired state will be classified as the “gap.” Schools will be provided with the tools to be given the optimum opportunity for success.

Accountability For All - We are all accountable. Board members, students, staff, families and community members have a responsibility, both individually and as part of the learning team, to participate and to contribute positively to public schools. We will provide high-level learning opportunities allowing students to reach their potential both in school, in family life and as part of their community. Knowledgeable, skilled staff will provide guidance and support in the development of capable, open-minded, educated citizens. Families and communities, working together with the school and school division, play an essential role in the creation of thriving, challenging learning environments to nurture the leaders of tomorrow. Innovative approaches to the

responsible management of division operations and activities will ensure efficiencies and improvements are achieved at all levels. Transparency and accountability in every area of operations are of paramount importance. Each person is held to a high professional standard and maintains a mutual respect for individual contributions to ensure success for our students and continuous school division progress. Individuals contribute to the team effort allowing all to reach their potential. Our success is a direct result of what we are able to accomplish together to achieve our best.

People Engagement - We are all a community of learners. Collaborative partnerships with students, staff, families and community members will enhance educational opportunities. The collective efforts of highly motivated, passionate, dedicated staff will result in successful students and promote continual progress towards ensuring every student is provided with the ability to succeed both within the school environment and after graduation. Internal and external communications focus on fostering and growing positive relations with students, staff, families and our communities to create a sense of confidence, optimism and pride in Good Spirit School Division. Innovative and inspiring board members, students, staff, families and community members in all areas of education will be positive ambassadors of their school experience. A thriving school community is built on a team effort within a healthy, culturally-responsive environment. As we continue to grow and change, our focus remains that of a safe, welcoming learning atmosphere that celebrates diversity, fairness, respect, responsibility and the deepening of knowledge.

Sustainable Infrastructure - We are committed to providing modern, responsible infrastructure to maintain and promote the highest levels of support for students, staff, families and the community. It is a core responsibility of the school division to ensure buildings, grounds, transportation and technology are built and maintained not only to current standards but that practices and procedures are in place to plan for a strong, vibrant future. We will develop proactive, innovative approaches to sustain, support and grow our facilities and systems. The Good Spirit School Division will continually look for

COMPONENT THREE - THE REVIEW PLAN
<p>Three times per year, the school team should unpack their LIP. Emphasis should be placed on results. The following questions may be used as prompts for discussion.</p> <ul style="list-style-type: none"> • What is on and off target? • What do we need to adapt in our plan? • What can we do to be more effective as a team? • What can I do to be a more effective team member?

COMPONENT FOUR - THE COMMUNICATION PLAN
<p>How will the plan and progress be communicated to the school community?</p>

LIP will be first presented to the SCC in September to get their approval.

The plan and progress of the learning plan will be communicated through the following:

- Update item at every SCC meeting
- Literacy Information at Student Led Conferences
- Planned Family Engagement Events
- Parents Promoting Reading Bulletin Board

The SCC will assist in communicating the school's LIP goals through involvement at Student Led Conferences and Meet the Family Night. (Depending on COVID regulations for group gatherings.)

Information will also be sent out in monthly school newsletter.

The School LIP will be posted on the school website for the community to access.

Academic Intervention – The Intersection of the Adaptive Dimension and Response to Intervention

Providing students with timely and regular academic interventions is an important component of the Good Spirit School Division's Framework for Student Success, Achievement and Graduation. This can be accomplished through the systemic implementation of supports and through regular and consistent application of the fundamentals of the Adaptive Dimension.

Red Level Strategies

- Curricular and materials, instructional and assessment, or environmental adjustments are selectively and purposefully designed to meet individual student needs.
- Emphasis is on tailoring the content and instructional approach in the context of individual needs so that the student achieves the outcomes.

Yellow Level Strategies for small groups of students

- Curricular and materials, instructional and assessment, or environmental adjustments are selectively and purposefully applied to similar interest, need or ability groupings.
- Emphasis is on enriching, extending, reinforcing, or differentiating to stated curricular outcomes.

Green Level Strategies for all students

- Decisions about curriculum and materials, instruction and assessment, and environment are applied to all students.
- A variety of instructional approaches is employed.
