In May, our SCC set school fees for the next year after a lengthy process that included a parent survey. We have not raised student fees for over 10 years, and it has proven difficult to make ends meet while still offering the services/programs we have offered in the past. Traditionally, these fees paid for various student activities such as ESA, extracurricular activities, and a yearbook for each student.

Parents relayed that they found our fee structure too confusing with charging various user fees. We have decided to set a flat fee to cover both student activities and class user/material fees. We will charge \$100/student for the first two students in a family, and \$75/student after that.

Below is the fees worksheet that we used with our SCC in this process.

### EHS School Fees (2020-2021)
